

DPVR-4D How to watch the video

■ Purchased list after login

- To watch purchased videos after logging in, select "Purchased List" from the top menu to see a list of purchased videos. You can select a genre on the left side of the list screen and switch between "VR" and "2D" video lists on the right side.

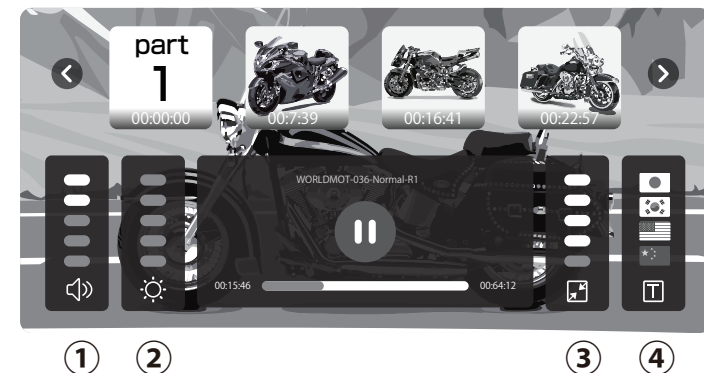

- Selecting the right menu "Local Playback" will display a list of videos by storage, as shown below. You can switch between the list stored in the top menu "HDD (external disk)," "SD (SD card)," and "LD (internal hard disk)," respectively.

- Move the cursor over the thumbnail in the video list and tap it. you will be redirected to the video playback page as shown below.

- ▶ Move the cursor over the playback mark and tap to play.

- When tapped during playback, the following screen will appear.

- You can jump to the scene of your choice by hovering over the thumbnail above and tapping.
- You can also move the cursor to any time on the seek bar at the bottom and tap to play the scene from that time.
- ①Volume control ②Brightness adjustment ③Screen Size Selection ④Language (subtitles) can be selected.
