◆ How to update and initialize online

- ① Move your eye to the icon  from the [Apps List] at the bottom of the home screen, and click on the device touch panel→Apps are launched.
- ② Place your eye on the center of the circle and click on the device touch panel.
If there is a firmware update, the installation will start, and if the firmware is already the latest version, the message [The current version is the latest] will appear.
· If you wish to initialize the unit, select Factory Reset from the upper right corner of the update screen.
Please note that Wi-Fi, applications, etc. will also be initialized.

◆ Video Playback Method

◇ About Streaming Playback

After selecting the thumbnail of the video you wish to view, select the play button on the details screen to watch it.

◇ About Local Playback

Select the thumbnail of the video you want to watch to watch it.

◇ Playback screen

Tap the touch panel while watching a video to display the menu.

The center menu allows you to "Play," "Pause," "Change playback position with the seek bar," "Go back to the beginning of the playback file (00:00:00)," and the side menu allows you to adjust "Volume," "Brightness," "Zoom," and "Subtitle Settings." Select "Yes" to exit.

To take full advantage of the DPVR-4D features, we recommend registering as a member of the L- POINT website.

Click here to register as a member.

 https://www.lpeg.jp/en_point/pass_remem.php

After the head mount is turned on and the Home screen appears, move the cursor to the Login button on the upper right side of the screen (⑤ in the figure below) and tap the touchpad to go to the login screen.

Please log in to the L-POINT site by entering the ID and password with which you registered as a member.

If you register as an L-POINT member (free of charge) on your smartphone or PC and charge points to the corresponding account, you can purchase videos after logging in on your device (DPVR-4D series).

· VR World : It distributes videos in various genres such as music, art, culture, and tourism.
